

Dart Harbour

DART HARBOUR & NAVIGATION AUTHORITY

Local Notice to Mariners 0409

HIGHER FERRY – OVERNIGHT WORKS

Overnight works will take place between the 5th and 7th of May commencing at 1930 each evening. The Higher Ferry will be suspended during this time.

The work will involve diving and dredging of the riverbed on the Dartmouth side extending some 50m into the channel from the slipway. A barge offloading spoil will transit from both sides of the river at this point. The operations will be well lit.

All vessels are requested to give both slipways a wide berth and proceed at slow speed to minimize wash during the work period.

Please cancel this notice on the 8th May 2009.

Mr Rick James
Harbour Master's Assistant

28th April 2009
