## **Local Notice to Mariners 0609**

---

### **Dartmouth Higher Ferry**

The existing Dartmouth Higher Ferry will be permanently withdrawn from service on the evening of Sunday 7<sup>th</sup> June. The new ferry is due to arrive in Dartmouth on Monday 15<sup>th</sup> June but is not expected to enter service until approximately 22<sup>nd</sup> June. Prior to the latter date contractors will be working on both slipways.

The new ferry will be propelled across the river on larger 38mm cables without the use of any externally visible propulsion and extensive trials will be carried out before it enters service.

**All river users should be aware that at times the wire guide cables may be on or close to the water surface when the ferry is underway and at all times should proceed with caution and give the ferry a wide berth.**

Captain David White  
Harbour Master
