### Important information regarding dinghy only or tender allocations on pontoon, or rack berths

Please note that preference is given to tender applications and a greater percentage ratio of berths will be allocated to tenders than dinghy only berths on pontoons or racks. Please note tender berths will only be allocated to persons that already have a main berth on the river.

For tender berths, on relinquishment of the main boat berth, the berth holder will be required to relinquish the tender berth at the same time as the main boat berth
