

Environmental and Community Fund

Your visit will help to support our local community – funds from cruise ship passengers are awarded to local charities and initiatives.

We provide access to water-based activities to young and disadvantaged people in the local community.

We also aim to inspire new generations of conservationists by introducing them to the natural beauty and environment of the Dart Estuary.

Our support includes:

Kayak and canoe trips for local school children.

Swimming lessons for all local school children.

Funding for Dart Sailability, a local charity for disabled sailors.

We really do value your call!
